

PROJECT 80036

Session 20-63

250900 June 1980

as soon as targeting
some loud banging / Thumping
Helicopter
heavy truck

large diesel locomotive
six sets of tracks
to extreme left peripheral
lot of flat cars
a switching yard

Turn around: describe

large flat building
move over: describe ground surrounding it
area very cluttered like edge of city
front of bldg to rear
RR to upper left
double parking area w/ road thru it
to R. cluster of smaller bldg.
first like deformed "H"
tall structures in upper R. like
exhaust stacks

immediately surrounding

large parking paved
hardstand, vehicles lined up
looks a lot like unfinished
tracked vehicles lined up.

only?

large holes top front
maybe damaged

hatches, guns missing, engines missing
look like armored shells

describe quantity

on R. two rows, possibly 30
different type to rear, about 10
smaller and narrower.

focus on the group - think of as one vehicles.

move forward to 14 May 1980. describe location
front pieces of turrets

being lifted by crane off of flat cars

same area

no high concrete roofed bldg.

move forward to 21 May 80

same bldg but diff. location (inside)

parked catty-corner, being moved

toward a large bay door

some kind of load ramp

shiny new things put on them

some kind of smaller tank

barrels mounted

move forward to 28 May 80

large room, inside overhang like
a warehouse

same
area but
diff end of
bldg.

7-8 parked in a row. canvas

covering

move outside

open area, fence, rr tracks going
away.

very large industrial area on
left.

move to 4 Jun 1980

moving on a train

move to 11 June 1980

large park area, a town near
water. a lake, I think

sitting on RR siding by a lake

there's loading platform

on the lake w/ RR tracks on it.

move to 18 jun 1980

I don't know. They're like fastened together w/ some kinds of chains still on flatcars but inside some kind of bldg.

move to Today 25 jun 1980

Describe their location now.

Pause

They're still on flatcars but apparently parked in holding yard in middle of nowhere

light, white, hot.

tin storage buildings

see side of large freighter of some kind. just desolate.

Nothing there.

Let me look around.

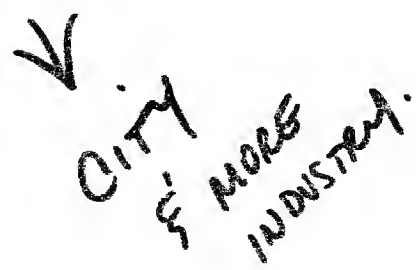

I'll wait

This is a port somewhere in N. Africa
indicators climate, writing (Arabic)

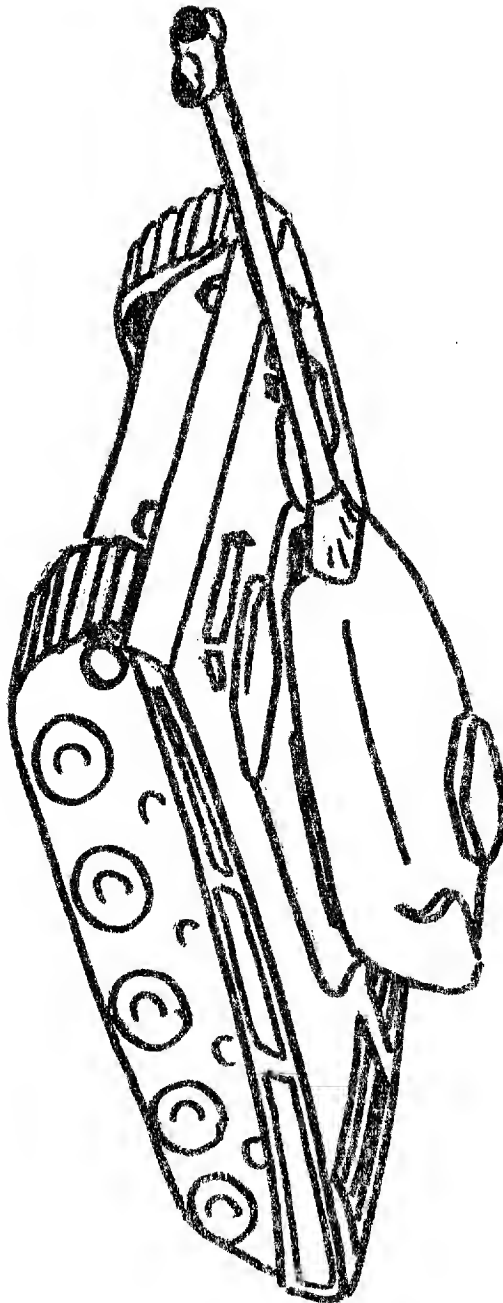

which group (of tanks) have you been following

The large group, but are smaller

they're older tanks but they're not old, they're new. I guess they're overhauled.
